

Hello and welcome to Novembers's newsletter

With shorter days and weather that doesn't always make you want to spend time outdoors, the inside of our homes becomes even more important in late autumn and winter.

Art in our homes can be a source of inspiration and colour - especially when the sky outside is a dull grey!

This is for many also the season of gift buying. When you buy a gift from a local artist you're giving something special and individual. And you're supporting a local small business - which we do appreciate.

You can meet some of our artists at the Horsham Artists Christmas Art Market. If the budget doesn't stretch to original artworks don't worry there will be plenty of prints, gifts and items on sale to suit most pockets.

Keep in touch

Many of our artist members have websites, some have online shops and even if they don't you can always drop them a line to ask about gift options.
